Regd. Office: 2nd Floor, Shop-2004,

I have been engaged by **Trident Lifeline Limited** ("the Company") to issue Compliance Certificate for the financial year ended March 31, 2026, in terms of BSE Circular No. 20241018-44 dated 18.10.2024 ("BSE Circular") read with regulation 3(5) and 3(6) of the Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015 ("PIT Regulations") as amended ("Engagement").

Accordingly, I have issued the Compliance Certificate for the financial year ended March 31, 2026 of the even date which should be read along with this Annexure. My certification, as above, is subject to the following:

1. Maintenance of Structured Digital Database ("SDD") is the responsibility of the board/management of the Company. The Engagement only seeks to certify the extent of compliance as required in terms of the Circular/ PIT Regulations. Also, the certification does not cover other compliances under PIT Regulations.
2. I have relied on the details, documents, information and explanations provided by the management and information freely available in the public domain for the purpose of issuance of the Compliance Certificate.
3. Wherever required, I have obtained the management representation about the happening/not happening of events, an information being in the nature of unpublished price sensitive information ("UPSI") or otherwise, etc.
4. I understand that the purpose of the Engagement is limited to checking compliance with the requirements pertaining to maintenance of SDD and capturing the nature of UPSI disseminated during the financial year. Accordingly, I have not gone into the question of determining whether an information is/was UPSI or otherwise. I have relied on the Company's decision as to classifying (or not classifying) the information as UPSI. Wherever necessary, I have submitted our views to the management.
5. Further, none of the information shared with me by the Company during the Engagement has been tagged as UPSI by the Company. Hence, I understand that none of such information is an UPSI and thus, has not been treated as UPSI by me.
6. There may be several aspects involved in the certification which may be largely driven and determined by information technology systems, software and computer applications used for the purpose, e.g. controls on accessibility to SDD, maintenance of audit trail, non-tamperability of SDD, etc. As a part of my review, I have made all efforts to check for the features in the SDD and take management

representation, wherever required; however, I offer no comments and provide no assurance as to the functioning, efficacy and suitability of such technology systems, software and computer applications, and my certification is limited to that extent.

7. I have followed the practices and the processes as were appropriate to obtain reasonable assurance about the sanctity of the processes and correctness of the contents of the records. Wherever deemed appropriate, the verification was done on a test basis. I believe that the processes and practices I followed provide a reasonable basis for my certification.
